

MARINER

Mariner goes GREEN

Mariner Capital and the Bicknell Family Holding Company are pleased to announce investments in two environmentally conscious technology companies, EcoFit Lighting Inc. and Nexos Lighting. Mariner and the Bicknell Family Holding Company recognize the importance of taking steps to sustain the world's environment and are confident in EcoFit Lighting Inc.'s and Nexos Lighting's ability to contribute to this shift. Mariner and the Bicknell Family Holding Company have active interests in:

- ◇ alternative energy
- ◇ electrical products manufacturing and distribution
- ◇ energy consulting
- ◇ lighting products
- ◇ lighting maintenance and management
- ◇ other environmental technologies, products, and services

Ecofit Lighting, Inc., headquartered in Kansas City, MO, has developed LED-based streetlight replacements using a patent pending retrofitting module. EcoFit's innovative technology provides superior quality lighting and improved efficiency through lower power consumption, lower heat dissipation, and lower carbon emissions. The patented module requires 50% less energy to operate and delivers a 5x longer lifetime compared to traditional bulbs used in the ISM+ streetlights deployed across the U.S. today. EcoFit is the only company to employ the latest high-output LED technology in a retrofitting device that does not require replacement of an entire streetlight fixture. Given the rising cost of electricity and environmental benefits of reducing energy consumption, EcoFit's products represent the best LED-based street lighting alternative for the future.

Nexos Lighting (NASDAQ Capital Markets; NEXS) is a leader in advanced lighting technology, including solid-state LED and fiber optic lighting systems and controls used in commercial, architectural, signage, swimming pool, entertainment and retail lighting. Nexos Lighting sells its products through its Array Lighting, SV Lighting, Advanced Lighting Systems, Lumificient and Nexos Lighting Pool & Spa business units under the Array™, Savi®, eLum™, LiveLED™, Hyperion®, Super Vision® Fiber Optics and Advanced Lighting Systems™ Fiber Optics brand names. Nexos Lighting.
